

Awnings, Canopies & Parasols

Awnings, Canopies & Parasols

Add a touch of luxury come rain or shine.

British weather is hard to predict, so why bother?

Be the envy of your friends and neighbours by adding a luxury awning to your home.

An awning will allow you to create a whole new area to relax under. It will provide shelter from the harmful rays of the sun but will also shelter you from those sudden down pours allowing you to enjoy your garden all year round.

Not only does an awning provide shelter but it will also help to keep your home cool and protect your internal furnishings from fading.

You can choose from a manual or motorised awning and you can select from over two hundred fabrics all resistant to fading and mildew.

All our motorised awnings are powered by a Somfy motor and are controlled by a wireless remote control. You can also add a sun and wind sensor that will fully control your awning for you providing extra protection, safety and home security.

If you just want sun protection then consider a canopy. A canopy can create a real continental look to your home. Available in a wide choice of shapes and colours, canopies can be fixed or fully retractable and for commercial premises, can be fully sign written.

We also offer a wide range of Parasols, available in lots of different colours and designs. Parasols not only provide protection against the summer sun but also enhance the beauty of your garden or patio area providing the ultimate choice for a distinctive outdoor setting that enables people to indulge in alfresco living at home.

All our awnings and canopies are backed up by a full five year guarantee.
