

Conservatory Blinds

Pinoleum Blinds

The natural beauty of pinoleum blinds gives every conservatory a wonderfully welcoming and elegant atmosphere. Gentle light diffusion from the wood-weave creates the perfect ambience for daytime relaxing and entertaining and a warm and cosy feel for evenings.

With a wide variety of wooden tones to choose from, as well as custom-painted blinds to fit your exact colour scheme, pinoleum enables you to dress your conservatory in style. Every blind is made to measure for an exact fit to provide precise light control and shading.

Conservatory blinds in cool neutrals or energising custom colour options

Pleated blinds are ideal for shading unusually shaped roof panels

Pleated Blinds

For the ultimate in light control and privacy, the simple lines of pleated blinds fit any conservatory perfectly. When folded away, their clever 'concertina' effect means that the blind practically disappears from view.

Providing fantastic sun and glare protection, as well as a huge array of finishes and fabrics (including some solar reflective finishes) means that pleated blinds allow you to enjoy our conservatory to its full advantage, whatever the weather or light intensity.

Creative window treatments lend a traditional or modern look to your conservatory
