

Vertical Blinds

Vertical Blinds

Vertical Blinds are a simple and sleek option to dress any size of window, including larger windows and patio doors. Their perfect straight lines allow superb light control and great privacy, being easy to control and drawing completely out the way when you wish to expose the full window.

Shade's vertical blind collection includes a huge variety of textures, finishes and fabrics – including machine washable blinds – to make sure that your blinds complement your home and your style.

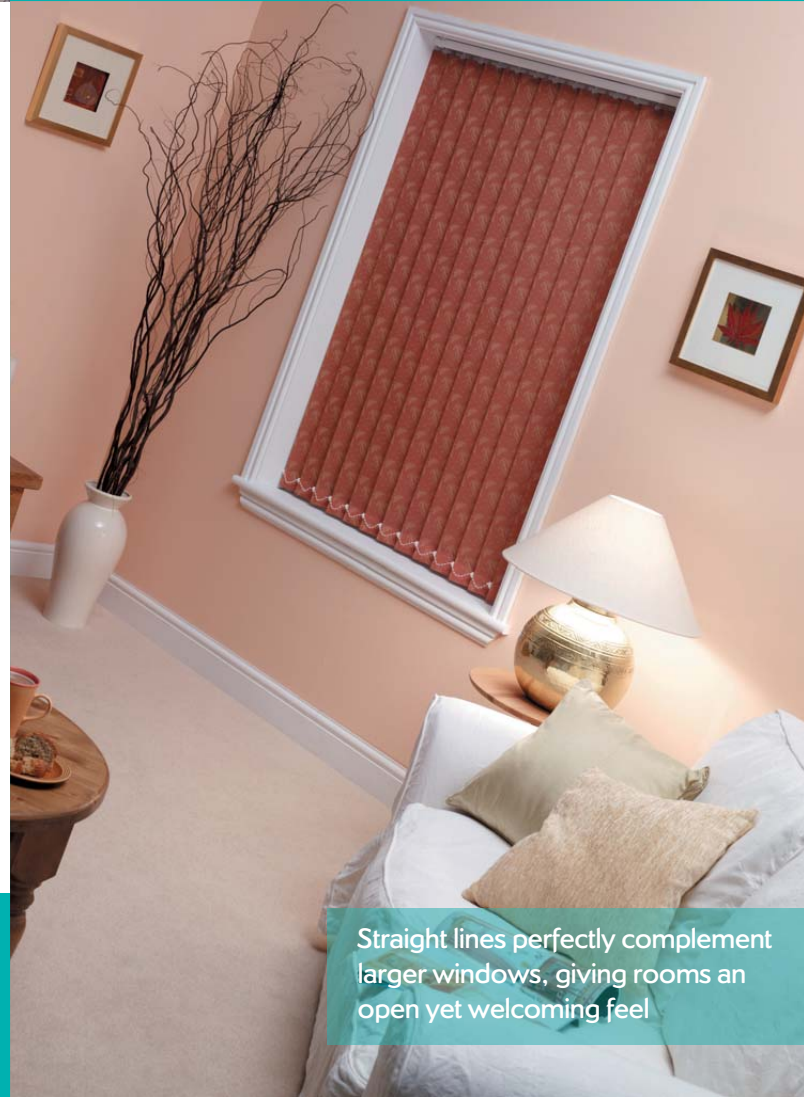

Gentle shading, just when you need it

Blinds to complement your home and your style

Modern Symmetry

Shades brings you over 300 fabrics to choose from, including fabrics that co-ordinate with roller and pleated blinds. Vertical blinds are ideal for windows that are, traditionally, difficult to dress such as sloping windows and curved headrails accommodate bay windows.

Vertical blinds are available in different widths and the vast array of fabrics includes Jacquards, prints, sheers, translucent and flame retardant to make sure we offer you the right blind for any space in your home.

Straight lines perfectly complement larger windows, giving rooms an open yet welcoming feel
